SPECIALISTS AND PROJECTS
(PTY) LTD**

Who Are We?

"Established in 2024 is SHECKSCOOL AIR SPECIALISTS AND PROJECTS. **SHECKSCOOL AIR SPECIALISTS AND PROJECTS** prides itself in its ability to deliver quality products, installations and maintenance across a variety of residential and commercial spaces.

Our team is led by NGIRAZI, MISHECK, the managing director, who has over 15 years' experience in the air conditioning industry. After working for businesses that maintained a strong focus on profits and neglected the quality, he believed it was time to make a difference by introducing SHECKSCOOL AIR SPECIALISTS AND PROJECTS to the air conditioning & refrigeration industry on the SHECKSCOOL AIR SPECIALISTS AND PROJECTS.

Our team of highly qualified technicians along with our team of customer service representatives strive to provide a seamless experience from beginning to end. Meeting your needs is our top priority. We look forward to establishing and maintaining a great relationship with all of our clients' partners and suppliers into the future.

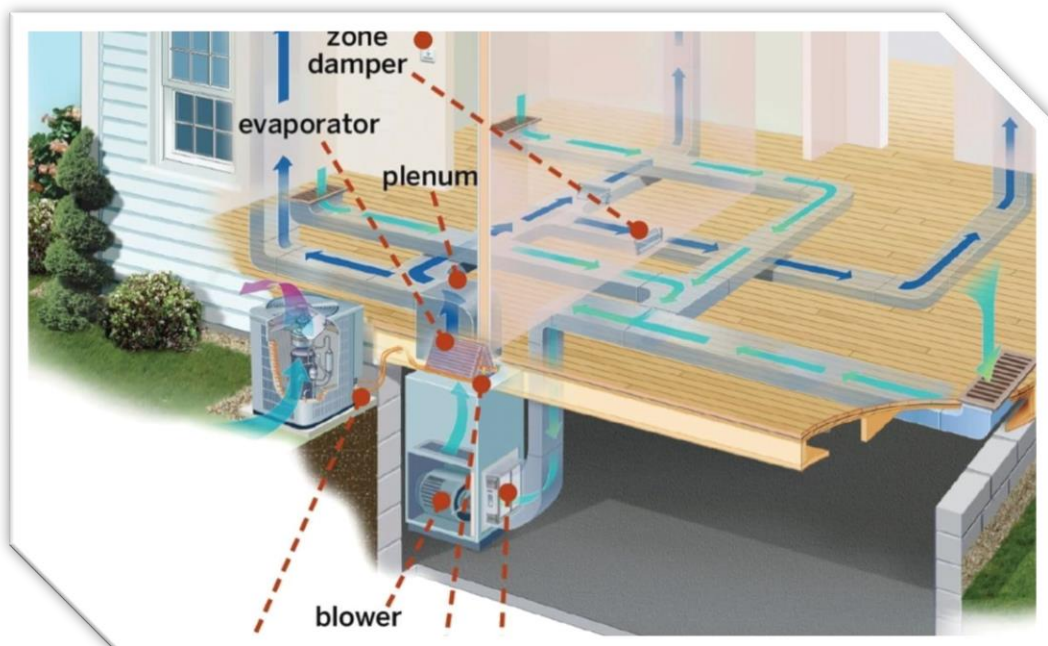

Safety

Every member of our team is equipped to perform each task with complete care for safety, whilst maintaining a focus on their professional attitude and efficiency. We take great care to ensure our clients and staff members are safely protected before, during and after the installation/maintenance or repair.

We actively encourage our team members to address any safety concerns, and we take immediate action to find a solution to these concerns.

Teamwork

The strength of our team does not only lie in our combined experience and expertise, but also our ability to be honest and trust each other. We like to challenge the status quo through a more open and honest working environment, allowing team members the freedom to manage their jobs independently from beginning to end. Innovation We enjoy bringing fresh ideas to the table, embracing curiosity and thinking creatively to change the game at any and every opportunity. Our team's passion for innovation allows us to always be thinking "how can we make it better?".

Customer

Commitment - We strive to deliver the greatest value to our clients through personalised service, commitment to quality, building great relationships and providing results. We are not shy to say that we have a fantastic level of customer satisfaction and we are committed to maintaining this.

Compassion/ Respect

Our team holds great appreciation for the SHECKSCOOL AIR SPECIALISTS AND PROJECTS community and environment. We like to engage in various fundraising events and regular donations to charities supporting those challenged with health, protection of children, animal welfare and the environment.

“We built our successful business based on one simple word “TRUST”. Because of this word we established our strength throughout the local and international market. We work with our client’s life cycle from inception to implementation with supplying capabilities to all the required equipment, devices, materials and after sales services, delivering unique technologies and end-to-end solutions.

We turn our knowledge into value for the benefit of our clients, staff members and our communities. SHECKSCOOL AIR SPECIALISTS AND PROJECTS provides a new idea, new innovation and is creating new market.

WHAT WE DO

Commercial Refrigeration

At SHECKSCOOL AIR SPECIALISTS AND PROJECTS, we work closely with a number of clients in various industries (most notably children's centres, aged care facilities and retail). Our dedicated team strive to meet timelines and quality expectations for all cool room fit outs as well as commercial fridge, freezer & ice machine set ups. Installation Scheduled Service & Maintenance Our team understands that the needs of the business can at times mean that the resource maintenance can be neglected. It is however critical to stay on top of to ensure

it does not become a financial burden to the company due to the cost of repairing or replacing refrigeration equipment. A pro-active maintenance program will significantly reduce reactive call outs, loss of stock and unexpected repair costs.

Our team use an electronic job management system which allows us to collate asset details and provide detailed reports for our clients. Our Service & Maintenance agreements will provide each client with piece of mind in knowing that we will reduce disruption to the business whilst also reducing running costs. Repairs The team also provides a breakdown/ corrective maintenance service. This can be carried out when a malfunction occurs. We work alongside our clients to address the issue as quickly as possible and are available 24/7 7 days a week for all of our contract clients.

Vision Statement

Services Offered System Design:

Our engineering capabilities range from designing large complex HVAC systems to small once-off specialized equipment to suit specific applications. Our strength lies in our approach of looking at applications from alternative angles to provide cost effective, energy efficient solutions. Supply of Equipment: Our partnering approach to business extends to maintaining outstanding long-term relationships with our suppliers whom we view as part of our team.

Our non-negotiable demand for quality, service and on-time delivery is reciprocated by our loyalty and assured prompt payment. Construction Services: Safety, Health, Environmental and Quality (SHEQ) management is the defining measure that sets the professional contractor apart from the bidder.

At SHECKSCOOL AIR SPECIALISTS AND PROJECTS, huge emphasis is placed on these aspects and are integral to our company and project management. System Commissioning: Our installations are commissioned in-house in accordance with recognised international standards (CIBSE, ASHRAE) and developed method statements which includes pre-commissioning checks, start up, testing, balancing and reporting. Service and Maintenance: In keeping with our partnership policy, we offer backup service and maintenance programs that let our customers count on SHECKSCOOL AIR SPECIALISTS AND PROJECTS long after the installation is complete.

This service is provided by our technical support division and is tailored to suit our customers specific needs and supported with a 24/7 call out response by certified technicians. Our computerised tracking of all maintenance and repairs, including service history and cost reports allow us to easily evaluate system performance and operating expense.

Commitment SHECKSCOOL AIR SPECIALISTS AND PROJECTS is committed to maintain a high standard of safety, health and environmental management while providing our clients with the best quality service and workmanship. In order to continually improve and achieve excellence in these fields we at SHECKSCOOL AIR SPECIALISTS AND PROJECTS will ensure: Customer satisfaction through:

- ✚ Providing top quality service and workmanship,
 - ✚ Building customer relations by listening to our customers and translating those needs into product and services,
 - ✚ Achieving targets set by ourselves and our customers
 - ✚ Innovative, tailor-made solutions and
 - ✚ Using our application know-how to improve our customer's processes and efficiency.
- We will win with people through their development and empowerment and through goal orientated leadership. We strive for excellence in all we do by planning, controlling and continually improving our management systems and business processes.

This extends to our resource utilization and environmental effects of our processes and products. We promote dialogue with interested parties, employees and authorities in an open and transparent manner. We act with integrity. We comply, as a minimum, with all applicable legal and other agreed requirements. We only carry out work of which the risks we know and can control. Safety, Health and the protection of the environment form an integral part of our activities and will include our employees, suppliers, contractors and the community at large.

Operating Philosophy SHECKSCOOL AIR SPECIALISTS AND PROJECTS core activities are design, project management and SHEQ management.

Our non-core activities are outsourced in line with our philosophy of promotion and support of small businesses. Health, safety and environmental management form part of our core process and, even though we outsource some activities, we view and manage these as if they were in-house.

Our non-core processes include:

Manufacturing

- ✚ Ducting manufacture
- ✚ Electrical panel manufacture
- ✚ Custom unit fabrication Specialist Installation
- ✚ Certain installation work such as electrical, controls and thermal insulation is carried out by specialist subcontractors under our supervision.
- ✚ All other installation work is carried out by our own supervised installation teams. SHEQ Management We have developed and implemented an Integrated Safety, Quality and Environmental Management System to demonstrate our ability:
- ✚ To consistently provide products and services that meet customer and applicable regulatory requirements.
- ✚ To address customer satisfaction through the effective application of the system including continual improvement and the prevention of nonconformity.
- ✚ To provide safe and healthy working conditions for our employees and other parties.
- ✚ To protect the environment during our activities. The scope of this Integrated Management System covers SHECKSCOOL AIR SPECIALISTS AND PROJECTS Engineering's provision of products and services which include the design, supply, installation commissioning and maintenance of:
 - ✚ Building heating, ventilation, air-conditioning and refrigeration systems.
 - ✚ Industrial and process heating, ventilation, air-conditioning and refrigeration.
 - ✚ Custom built heating ventilation, air-conditioning and refrigeration equipment. The Integrated Quality, Environmental, Safety, and Health (SHEQ) systems of SHECKSCOOL AIR SPECIALISTS AND PROJECTS addresses the requirements of international standards ISO 9001-2015, ISO 14001-2015 and OSHAS 18001-2015.

We understand how important it is that everything in your business keeps running smoothly. We have an extensive client base and service a large range of equipment from domestic to large commercial air conditioning and commercial cold store installations. We recognise our clients' need for reliability of service and structure our maintenance programmes accordingly. Our comprehensive maintenance plans allow you to budget on a fixed monthly amount for all equipment breakdown and maintenance services. This protects you from expensive equipment failure and the resulting cash flow problems associated.
